## Summary

I'm a Composer and Visual Effects artist and I am interested in photography.

Since I was a child, I was interested in movies that had fictional scenes and I really liked to combine the movie with animation to make it real.

Very soon, I entered the field of 3D architectural visualization and worked with 3ds max, vray and zbrush.

Little by little, I started to learn from the lower versions of nuke software and I saw almost the evolution of this software in different years, and then I entered the field of advertising as a generalist and used After Effects, Mocha and pfrack software. And sometimes I did ON-SET VFX for commercials. Then I entered the field of vfx films.

## Experience

Winning Time The Rise of the Lakers Dynasty (composite supervisor) | TV Series (HBO) , PixelKrush - uncredited(Toronto , Remote)  
Hot Skull (composer) | TV Mini Series(Netflix),GeniusPark VFX 2022 (Turkey )
